KAYODE DADA

Frontend Developer

📞 09132589516   ✉ dadavictory2000@gmail.com   🌐 https://github.com/KAYZI2HIGH

I have been in the Frontend Development field for 2 years now and I have acquired sufficient proficiency in HTML, CSS3, PHP and jQuery. I also have experience in Frameworks, that is, React, Tailwind CSS, Next.js and Project Management, which entails full project lifecycle from concept to deployment.

SKILLS

- Languages: HTML, CSS, JavaScript
- Frameworks: ReactJS, NextJS, NextAuth, Bootstrap, Tailwind, Mongoose
- Tools: jQuery, Zod, Sanity, MongoDB, Cloudinary, Teamwork
- Personal skills: Project planning, strong communication, ability to learn quickly and adapt to new technologies.

PROFESSIONAL SUMMARY

Frontend Developer

- Designed and developed user interfaces and user experiences (UI/UX).
- Built responsive, interactive web applications using HTML, CSS, JavaScript, and frameworks like React, Angular, or Vue.js
- Ensured cross-browser compatibility and debugged issues.
- Collaborated with designers and back-end developers to deliver high-quality solutions.

Intern at HNG

- Played a front end lead role, and managed the companies development cycle, making sure the team wrote clean code and an efficient and effective product was built.
- Duration: Jan 28 - March 2

PropiFix

- Worked with a team at PropiFix on building a complex real estate management web app, where users can find nearest artisans, buy or rent land, apartments, and many more.
- PropiFix - March 10 - Till date.

EDUCATION

Field Of Study

Systems Engineering,
University Of Lagos
